INTERNSHIP

Cravita

July 2023 – August 2023

Jr. Software Engineer

Pune, Maharashtra

- **About the Role:** As a Jr. Software Engineer at Cravita, contributed to software development project with a focus on Java, Springboot, Mysql, Hibernate, servlets, JSP. collaborated with cross-functional teams to deliver high-quality solutions.

PROJECTS

E-Tutor  | HTML, CSS, Javascript, JSP, Servlets, Java, Springboot, Hibernate, Bootstrap **August 2023**

- **About the Project:** Developed E-Tutor a web-based system designed to connect students with nearby tuition teachers. The platform enables teachers to create profiles and attract students, facilitating easy access to educational resources. Key features include:
 - * Seamless registration and profile setup for teachers and students.
 - * Dynamic user interface using HTML, CSS, Bootstrap, and JavaScript.
 - * Backend functionality implemented with Spring Boot, Hibernate, JSP, and Servlets.
 - * Database management and querying handled efficiently with MySQL.

E-Commerce  | HTML, CSS, Javascript, Python, Django, Sqlite, Bootstrap **August 2022**

- **About the Project:** The E-commerce Seller and Customer Project is a versatile online marketplace enabling the buying and selling of products. Key features include:
 - * The project aims to deliver a seamless and user-friendly experience for both sellers and customers, with an administrative module for system management..
 - * Dynamic user interface using HTML, CSS, Bootstrap, and JavaScript.
 - * Django powers the backend, with SQLite serving as the database solution, ensuring efficient data storage and retrieval.
 - * Database management and querying handled efficiently with SQLite.
